Re: Proposed 3-Way Stop sign – Sandy Hook Road

Dear Ken,

As a result of our discussions I can now advise that we have spoken to the owners of the three residences closest to the corner of Sandy Hook Road and Klahanie. The addresses are:

5879 Sandy Hook Road
6992 Skana Crescent
5869 Klahanie

This process took longer than we anticipated because the owners of the Klahanie house do not live there. They visit some weekends and Gray was able to catch them on September 2nd.

The owners of the other two residences expressed some concerns with regard to possible truck noise and Gray gave his assurance that he would advise them when the subject is scheduled for Committee and Council so that they may make their views known publicly if they wish.

No one likes the idea of change if they think it is going to impact them personally. A lot of thought has gone into this proposal and we strongly believe it will be a plus for the great majority of those affected.

We hereby urge that you arrange for the subject to be included in the agenda for the Parks and Public Works Committee meeting scheduled for September 26th. Please confirm so that our association can have a delegation present and so that Gray can live up to his obligation to inform the home owners of the subject properties.

Many thanks for your interest and ongoing support and for that of John Wild too.
Please just reply to the noted address – email is fine - and it will be passed on.

Yours truly,
Sandy Hook community Association

Per

Bob D'Arcy
Secretary/Treasurer

CC: John Wild – Superintendent of Public Works
