

Sandy Hook Tot Park

Skookum Hut Update

The conceptual design rendering of the Skookum Hut Picnic shelter in Tot Park.

The Sandy Hook Association has been working for several years towards the building of a heavy timber open air community structure to provide rain shelter, picnic space and meeting area for events, gatherings etc. The project was approved at the 2021 SHCA Annual General Meeting. Tot Park, being at the corner of Deerhorn and Skookumchuk, is central and easily accessible.

The District of Sechelt has approved funding to create a building permit set of drawings for this project which would allow the Community Association to apply for a construction grant from the Sunshine Coast Community Forest Legacy Fund.

The Sandy Hook Community Association (SHCA) would like to show the District that this project is strongly supported by the Community. Please respond to the community survey on the Sandy Hook website at <https://sandyhookca.org> or complete a paper copy available at the community boards and place in Association box at Tot Park.

Any questions or comments, please contact Board member Randy Knill at sandyhookcommunityassociation@gmail.com

Thanks!
